Brockley Primary School

Domestic Abuse

Brockley Primary School will receive from Derbyshire Police a notification of every incident that has been reported to them or known to them of domestic abuse where a child is known to be living in the household.

This is a Derbyshire Police initiative working with Derbyshire-County Council Childrens Services. Safeguarding is everyone's responsibility and this is to help schools with responses to domestic abuse by helping them support children and their families exposed to or involved in domestic abuse.

This may mean talking to pupils about their experiences, raising awareness through classroom discussion and schools activities, helping victims and families by providing to them signposting information.

This school is committed to protecting children and young people and working with partners to stop domestic abuse.
